CSDE Fellowships for 2006-2007

CSDE is pleased to announce the availability of CSDE fellowships for students with interests in population issues for the academic year 2006-2007. CSDE fellowships fund between 6 and 7 graduate students per year from two sources each of which has differing restrictions on eligibility:

- **Shanahan Fellowships** are open to all students
- **NICHD Training Fellowships** are restricted to US Citizens and Permanent Residents

We expect up to four fellowships from these two sources will be open for either incoming or continuing students.

Applications for these fellowships from incoming students should include:

- An application letter from the student stating academic and research plans.
- Two letters of recommendation.
- A current transcript.

Applications for these fellowships from current UW students should include:

- An application letter from the student stating academic and research plans.
- Two letters of recommendation.
- A current transcript.
- A statement of satisfactory progress from the departmental graduate advisor.

Successful applicants will be expected to take the core sequence of courses in demography that include CSDE 502, CSDE/Sociology 513 and Sociology 433. In addition, they will enroll in and regularly attend the weekly CSDE seminar series (CSDE 501), and work for 15-19 hours per week with a CSDE faculty affiliate of their choosing on a mutually agreed topic. Students must be in continuous residence while holding the fellowship.

Completed applications must be received by 5 pm on **Monday, February 27th, 2006.**

Please send applications to:
