

# Call for Applications Targeted Postdoctoral Fellowship

## Species Distribution Modeling and Conservation

Applications are currently being accepted for a postdoctoral position in species distribution modeling and conservation at NIMBioS and in the Department of Ecology & Evolutionary Biology at the University of Tennessee, Knoxville. The postdoctoral fellow will work with UT faculty (Paul Armsworth, Xingli Giam and Mona Papeş) as part of an interdisciplinary team researching how to account for the combined effects of land use change and climate change when designing conservation strategies for the Appalachian region. The postdoc will join a community of postdoctoral scholars at NIMBioS and UT Knoxville's ecology program, one of the top 10 percent of ecology units in the U.S.

*This is a full-time, one year position. Review of applications will begin 14 May 2018 and continue until the position is filled.*
