

CSDE Development Core

Seminar Series

Our weekly seminar series meets Fridays 12:30-1:30 pm throughout the academic year. Most meetings are hybrid, based in Hans Rosling Center 101. Our panels are especially popular, as are our “Author Meets Critic” sessions. For more info:

Population Research Planning Grants

Planning a grant-writing retreat? Need to hire an RA to finish pilot data analysis? Attending a workshop to learn a skill set central to your new research direction? PRPGs provide in-kind support and/or funds of up to \$25k to support a wide array of activity types throughout the development of a research project, particularly those that lead directly towards grant submission. We aim to complement rather than duplicate other campus opportunities like PHI. See:

<https://csde.washington.edu/research/prpg/>

CSDE is a community of faculty and students associated to advance population science through research and training. As a federally funded research center with over 70 years of experience, the CSDE community of scholars develops new demographic measures and methods, advances knowledge about population dynamics, generates new data and evidence to support population science, and trains the next generation of demographers. Join us today!

DEVELOPMENT CORE SERVICES 2023-2024

CSDE's Development Core promotes innovative and interdisciplinary population science research. We do this by:

- creating mechanisms to support and mentor **junior population scientists**
- encouraging research projects with high potential for **extramural funding**
- facilitating **multidisciplinary collaborations**
- maintaining and nurturing a **community of scholars** that engages in the regular exchange of information and ideas.

Look inside for specific
opportunities!

Development Core Services

Grant Matches

If you are applying for a seed grant from PHI, Urban@UW, EarthLab or elsewhere on campus, CSDE may be able to provide matching support that increases your chances of success. This may take the form of in-kind services or additional funding for activities that don't fit into the main budget. Some restrictions apply. See:

<https://csde.washington.edu/research/matching-support/>

Summer Grant Writing Program

Writing your first (or second, or third...) NIH proposal? Or considering it? Join this unique opportunity to do so with mentors and a cohort of other scholars. We meet once every 2 weeks throughout the summer, learning about and drafting each section of an NIH proposal. Have your work reviewed by your peers, the Development Core chair and a senior mentor in a supportive and fun environment! See:

<https://csde.washington.edu/research/csde-grant-writing-summer-program/>

Development Core Services

Working Groups

We help organize groups of researchers with shared interests, forging new connections and brainstorming ideas. The set of working groups evolves frequently based on current interests and needs. Current groups include **Computational Demography**; **Migrations**; and **Mobility and Infectious Disease**. Send us your ideas for a new group today!

<https://csde.washington.edu/research/working-groups/>

D4 Events - New this year!

CSDE will be organizing annual 2-day **signature events** with a new theme each year, all in the realm of “**Demography, Data, Disparities, Decisions**”. Each will have an engaging, interactive flavor with concrete outcomes. Our inaugural event is now in planning mode:

**Climate Change and Displacement
Data Hack-a-thon
Autumn 2023**

Stay tuned for more info!

Primary Research Areas

The Development Core's activities are organized around five Primary Research Areas (PRAs), each of which has a PRA Chair.

These are:

- **Demographic Measurements and Methods**
Chair Zack Almquist (zalmquis@uw.edu)
- **Environments and Populations**
Chair Ann Bostrom (abostrom@uw.edu)
- **Health of People and Populations**
Chair Anjum Hajat (anjumh@uw.edu)
- **Migrations and Settlements**
Chair Nathalie Williams (natw@uw.edu)
- **Wellbeing of Families and Households**
Chair Heather Hill (hdhill@uw.edu)

Contact Development Core

For more information on any aspect of the Development Core, please contact the director, **Steve Goodreau**, at goodreau@uw.edu.
