Tina Swenson, Administrator, CSDE

Re: Population Health Initiative Seed Grants and Matching Support

Cc: Megha Ramaswamy, Chair, HSPop
Jerry Cangelosi, Associate Dean for Research, School of Public Health

As a Federally and University funded research center, the [Center for Studies in Demography & Ecology](#) in the College of Arts & Sciences provides technical expertise and financial support to over 150 researchers at the University of Washington.

CSDE is pleased to pledge in-kind support for your proposed research project *Leveraging data to measure risk factors affecting post-acute care access and outcomes among patients within and outside of care networks*, for submission to the Population Health Initiative's Tier 2 Pilot Research Grant competition for Winter 2024. Specifically, we are happy to host the project's merged Medicare administrative data and electronic medical record data, and manage the security and access for both. We will also provide expert advice on best practices for data integration and management. We are happy to provide this commitment now to support your Letter of Intent, and to re-affirm our commitment if you are invited to submit a full proposal.

We're delighted to support this project and wish you the very best in the competition.

Sincerely,

Steven M. Goodreau
Development Core Director, CSDE

CSDE acknowledges we are on Coast Salish territory, the traditional homeland of the Duwamish, Suquamish, Tulalip, and Muckleshoot nations and other Native peoples.

CSDE's commissioned logo from Native artist, UW Professor Marvin Oliver acknowledges these vital connections to native peoples and territories
