Fostering Connections in AI and Health

Tuesday, March 5, 2024 | The HUB Room 145
10 a.m. - 12 p.m. program | 12 - 1 p.m. networking lunch

Register here

Join us for an Open Space-style event to help facilitate new collaborations between UW researchers who are interested in applying generative AI and large language models to pressing health challenges. Attendees at the event will set the agenda for discussion, offering to convene discussions on possible topics or projects where collaboration is sought.
