Lab 1: Creating Your Account and a Project

Purpose

In this lab, you will learn how to create an account on the Vanderbilt REDCap server and a project.

Part 1 - Create a REDCap trial account on Vanderbilt REDCap server

- 1. Navigate to <u>https://projectredcap.org/software/try/</u> to set up a one-week trial account on the Vanderbilt REDCap server.
- 2. Click Get a free one-week REDCap trial account

3. Fill in the requested details and click Sign up. Enter an email address you will be able to access from the workshop classroom.

REDCap	
Sign up for a 1-week REDCap tr	rial account Or you may Log in if you already have an account.
If you are interested in signing up for a f account created. Once your account is c	free one-week trial of REDCap, enter your email address below to have your trial reated, you can use this installation to demo all of REDCap's features.
NOTE: Any projects created on this sen that this REDCap installation is *not mo suspected of abusing this system will h REDCap or joining the consortium, plea	ver will be automatically deleted after one week of being created. Also, please note onitored* by any administrative staff. It is completely self-serve. Any user have their account suspended immediately. If you have any questions about ase see <u>projectredcap.org</u> .
Email addre	Your email address will become your REDCap username
First and last name:	
Institution / organization name:	
Organization type:	✓
Country:	~
Website (optional):	
Reason for signing up:	✓
	Sign up

- 4. You should see a green box with the title "Account successfully created" and a message stating to check your email to complete the creation of your account.
- 5. Open the email and click on the <u>Set your new REDCap password</u> link.

REDCap Trial Account
N no-reply@redcapdemo.vanderbilt.edu <redcap.services@vumc.org> To: plitwin+rctrial@uw.edu Wed 1/31/2024 3:34 PM</redcap.services@vumc.org>

		Welcome to REDCap! REDCap is a secure web platform for building and managing online databases and surveys. REDCap's streamlined process for rapidly creating and designing projects offers a vast array of tools that can be tailored to virtually any data collection strategy. REDCap provides automated export procedures for seamless data downloads to Excel and common statistical packages (SPSS, SAS, Stata, R), as well as a built-in project calendar, a scheduling module, ad hoc reporting tools, and advanced features, such as branching logic, file uploading, and calculated fields. Learn more about REDCap by watching a B brief summary video (4 min). If you would like to view other quick video tutorials of REDCap in action and an overview of its features, please see the Training Resources page. NOTICE: If you are collecting data for the purposes of human subjects research, review and approval of the project is required by your institutional Review Board.
